

## **Oh By The Way...continued:**

**Following is more info intended to help you prepare for your trip and not forget something important or something you might not be aware of:**

- **Many people find suntan lotion and boat motion sickness medicines/patches to be helpful to have along on the trip.**
- **All Alaska attire including our finest restaurants are decidedly casual. Casual pants and shirts and sturdy outdoor type shoes are all that are necessary. Again, think in terms of layered clothing to meet a variety of spring/fall weather conditions.**
- **Do be aware of today's airport travel conditions – do be very early to avoid security line problems and have all of your personal I.D. along with you and at hand.**
- **If you are traveling to Kenai, be sure to check all of your luggage straight through to that destination.**
- **If you have a cell phone that can “roam” do bring it along. It is usable in most area's and always a good safety item to have on hand.**
